PRODUCT CERTIFICATE

DuPont Tyvek® Flashing Tapes

KEY INFORMATION

SUMMARY OF DESCRIPTION OF BUILDING METHOD OR PRODUCT

DuPont Flashing Tapes are made of three components (film or fabric carrier, butyl rubber adhesive, and a release liner). This certificate covers the following products:

- DuPont Flashing Tape (supplied in 22.9m rolls either 101mm, 152mm or 228mm wide)
- DuPont FlexWrap NF (supplied in 22.9 m rolls either 152 mm or 228 mm wide)

Continuation of description can be found in item 9. Supporting Information about Description of Building Product or Method.

Matters that should be taken into account in the use or application of the building method or product can be found in item 6. Conditions and Limitations of Use.

4 SUMMARY OF INTENDED USE OF BUILDING METHOD OR PRODUCT

DuPont Flashing Tapes are used to flash around windows and doors as a secondary weather-resistant barrier. They may also be used at joinery heads to seal flashing upstands to the wall underlay.

Continuation of intended use can be found in item 10. Supporting Information about Intended use of Building Product or Method.

BUILDING CODE PROVISIONS

The performance clauses of the New Zealand Building Code that are relevant to the intended use and with which the building method or product complies or contributes to (where used as part of a system).

B2 Durability: B2.3.1 (a) B2.3.2

E2 External moisture: E2.3.2 (contributes to), E2.3.7

F2 Hazardous building materials: F2.3.1

How the building method or product complies or contributes can be found in item 12. Basis for Certification. Any qualifications on the extent of that compliance can be found in item 6. Conditions and limitations of use.

14 CONDITIONS RELATING TO NOTIFICATION

- (a) the certificate holder notifies the product certification body (Bureau Veritas) in writing of any intended change to any of the following particulars:
 - (i) the name, address, or contact details of the certificate holder:
 - (ii) any address of a location where a certified product is produced or manufactured:
- (b) the certificate holder notifies the product certification body (Bureau Veritas) in writing of any intended change, modification, or alteration to any of the following:
- (i) the certified building method or product:
- (ii) the method of its production or manufacture:
- (iii) the product quality plan prepared in respect of the certified building method or product:
- (iv) the application or installation instructions for the certified building method or product:
- (v) any documentation relating to the use and maintenance of the certified building method or product:
- (c) if the certificate holder has any reason to suspect that the certified building method or product does not comply with the Building Code, the certificate holder notifies the product certification body (Bureau Veritas) in writing of the reason for that suspicion:
- (d) if the certificate holder or the product certification body (Bureau Veritas) finds that a certified building method or product that has been released on the market does not comply with the Building Code, the certificate holder discloses that fact in disclosure statements published in a form that is acceptable to the product certification body and to the chief executive:
- (e) if the certificate is suspended or revoked, the certificate holder—
- (i) notifies all customers to whom the building method or product is regularly supplied; and
- (ii) immediately ceases using the certificate, the mark of conformity, and any reference to the number of the certificate.
